

Visiting restrictions across our hospital

- 🔄 We continue to take all necessary precautions to protect our patients and staff during the coronavirus (COVID-19) outbreak
- 🔄 **Our preference at this point is that we have no visitors coming to our hospitals**
- 🔄 We will consider visitors on compassionate grounds for seriously ill patients or those receiving end-of-life care, in agreement with each individual ward
- 🔄 We will support you to keep in touch and provide a telephone number you can call to speak to your relative or please arrange to deliver a mobile phone for their use
- 🔄 Even under these circumstances, you should not visit if you have any symptoms or feel ill or are advised to stay at home to isolate.
- 🔄 We regret we cannot provide visitors with personal protective equipment, as we need to conserve stocks for essential medical treatment
